Celebrating Our Summer Researchers

Our fourth summer research program has concluded, and we are so excited to share the great service-research work of our 12 faculty and 13 students.

Please join us for an interactive workshop to kick off our 5th year of Research That Reaches Out.

Participants can expect to:
1. Preview preliminary results from Research That Reaches Out initiatives.
2. Engage with fellow faculty from other units.
3. Discuss QEP data trends.
4. Participate in collaborative activities related to student products.
5. Learn about post-QEP transition plans.
6. Leave with ideas to implement in their home departments and units.

Location information will be sent to registered participants. Please indicate if you will or will not attend by using this link to RSVP:

Click here to RSVP by Aug. 5!

It Ain’t Braggin’ If It’s True!

Have you or your students disseminated your Research That Reaches Out work in a presentation, poster, or other format? Let us know! We are collecting good news to help us shape our 2021 QEP Impact Report.

Examples could include, but are not limited to:

- peer-reviewed journal articles
- presentations
- workshops
- exhibits
- reports

Email Hannah Vann at vann_hf@mercer.edu with details.

Research That Reaches Out
5th Year Workshop:
Data-Driven Discussions
Tuesday, August 13 | 9:00 am - 1:00 pm

Faculty at the 2018 QEP Workshop work in small groups.
