Dr. Elaina Behounek’s Semester Project

Dr. Elaina Behounek, Assistant Professor of Sociology in CLA, was awarded a semester project grant in September to implement a PSA project with her students in her Women, Crime, and Justice class (SOC/WGS 350). The students worked in five small groups to identify topics of interest and develop a public education initiative to raise awareness and combat the problem. For their final exam, the students presented their research at a public event on Wednesday, December 6. Topics included sexual assault, intimate partner violence, sex trafficking, and juvenile delinquency. One group has even begun implementing their awareness campaign, Rock2Stop, around the state of Georgia. They paint small rocks with sex trafficking facts and a link to their facebook page, and they place the rocks in public places at the five cities in Georgia with the highest trafficking rates. As people find the rocks, they take a photo, post online, and relocate the rock to spread the message. You can check out the Rock2Stop initiative here.

QEP Open for Business Over the Break

Our office will be open for business over the break, so feel free to reach out to us if you need help developing assignments, building courses, or adding finishing touches to that February 1 funding application. Thank you to our faculty for your diligence in sharing student work for assessment. As finals come to a close, we look forward to your continued support in this effort.

Last Chance for 17-18 Project Funding

- Semester Project Support Round 3 (due February 1)
- Conference Funding (rolling application)

To discuss project ideas and/or applications, contact Dr. Kathy Kloeppep.

ReTR O party

Join us as we celebrate the halfway point of the QEP and the accomplishments of our faculty and staff in helping us achieve our Research that Reaches Out goals.

Drop-in for throwback refreshments, psychedelic freebies, and a preview of what’s to come. It’ll be far out!

Friday, January 19 • 10-10:50am • Penfield
