High Five Faculty!

A big HIGH FIVE to our faculty for your diligence in sharing student work for assessment.

If you received a request for student products, please submit your materials by Wednesday, December 19.

Thank you!

Faculty Funding Survey

As we approach the close of the fourth year of this QEP, we would like to take stock of how this initiative has supported faculty professional development. If you have received funding from QEP: Research that Reaches Out, you will be receiving a brief survey about how the funding has supported you and your work at Mercer.

Thank you for completing these surveys. This information will be used in our final Impact Report as well as for future planning.

Wishing you a safe and happy holiday season!

Congratulations to the Spring 2019 Semester Project Funding Recipients

Dr. André Butler,
Associate Professor, Environmental Engineering
Dr. Butler will be working with students in EVE 493 to study indoor and outdoor air quality using Dr. Butler’s DustDuino technology.

Dr. Matt Harper
Assistant Professor, History
Dr. Harper will be working with students in HIS/AFR 363 to research people and events in local black history and work with local partners to propose public commemoration.

Dr. Sinjae Hyun, Professor, Biomedical Engineering
Dr. Scott Schultz, Professor and Associate Dean, Engineering
Dr. Hyun and Dr. Schultz are working with students in EGR 491 to produce large quantities of 3-D yearbooks for students at the Georgia Academy for the Blind.

Dr. Philip McCreanor, Professor, Environmental Engineering
Dr. Kleio Avrithi, Assistant Professor, Civil Engineering
Dr. Natalia Cardelino, Assistant Professor, Civil Engineering
Dr. Donald Ekong, Associate Professor, Computer Engineering
Dr. Robert Gill, Assistant Professor, Mechanical Engineering
Dr. Alireza Sarvestani, Assistant Professor, Mechanical Engineering
This team of faculty will be collaborating with the Department of Physical Therapy as they work with students in EGR 492 to expand the work of the Go Baby Go initiative to include adaptive toys and body weight support harness projects.

Dr. Jose Pino
Associate Professor, Spanish
Dr. Pino is working with students in SPN 385 to plan and host the 3rd annual Hispanic Health Fair in Macon, Georgia.

Dr. Charlotte Thomas
Professor, Philosophy
Dr. Thomas is partnering with The Daybreak Center to work with two sections of PHI 195 to create applied-ethics community-based projects.
